

**POUR FUEL ON  
YOUR BUSINESS...**  
and watch it accelerate!

**FUEL**  
CERTIFIED PROFESSIONAL  
ACCOUNTANTS

Owning a business is a lot like driving a race car. To be successful and achieve your dreams you need to be aware of the competition, avoid potholes, navigate blind corners and negotiate speed bumps. You can settle for driving round in circles or you can head for a particular destination. You can get there fast or slow – the choice is yours.

## Philosophy

We're completely unlike most other accountants you'll find.

At Fuel, we're not satisfied crunching numbers - our mission is to help your business accelerate! We don't sell tax returns! We provide a growth-oriented year-round business support service

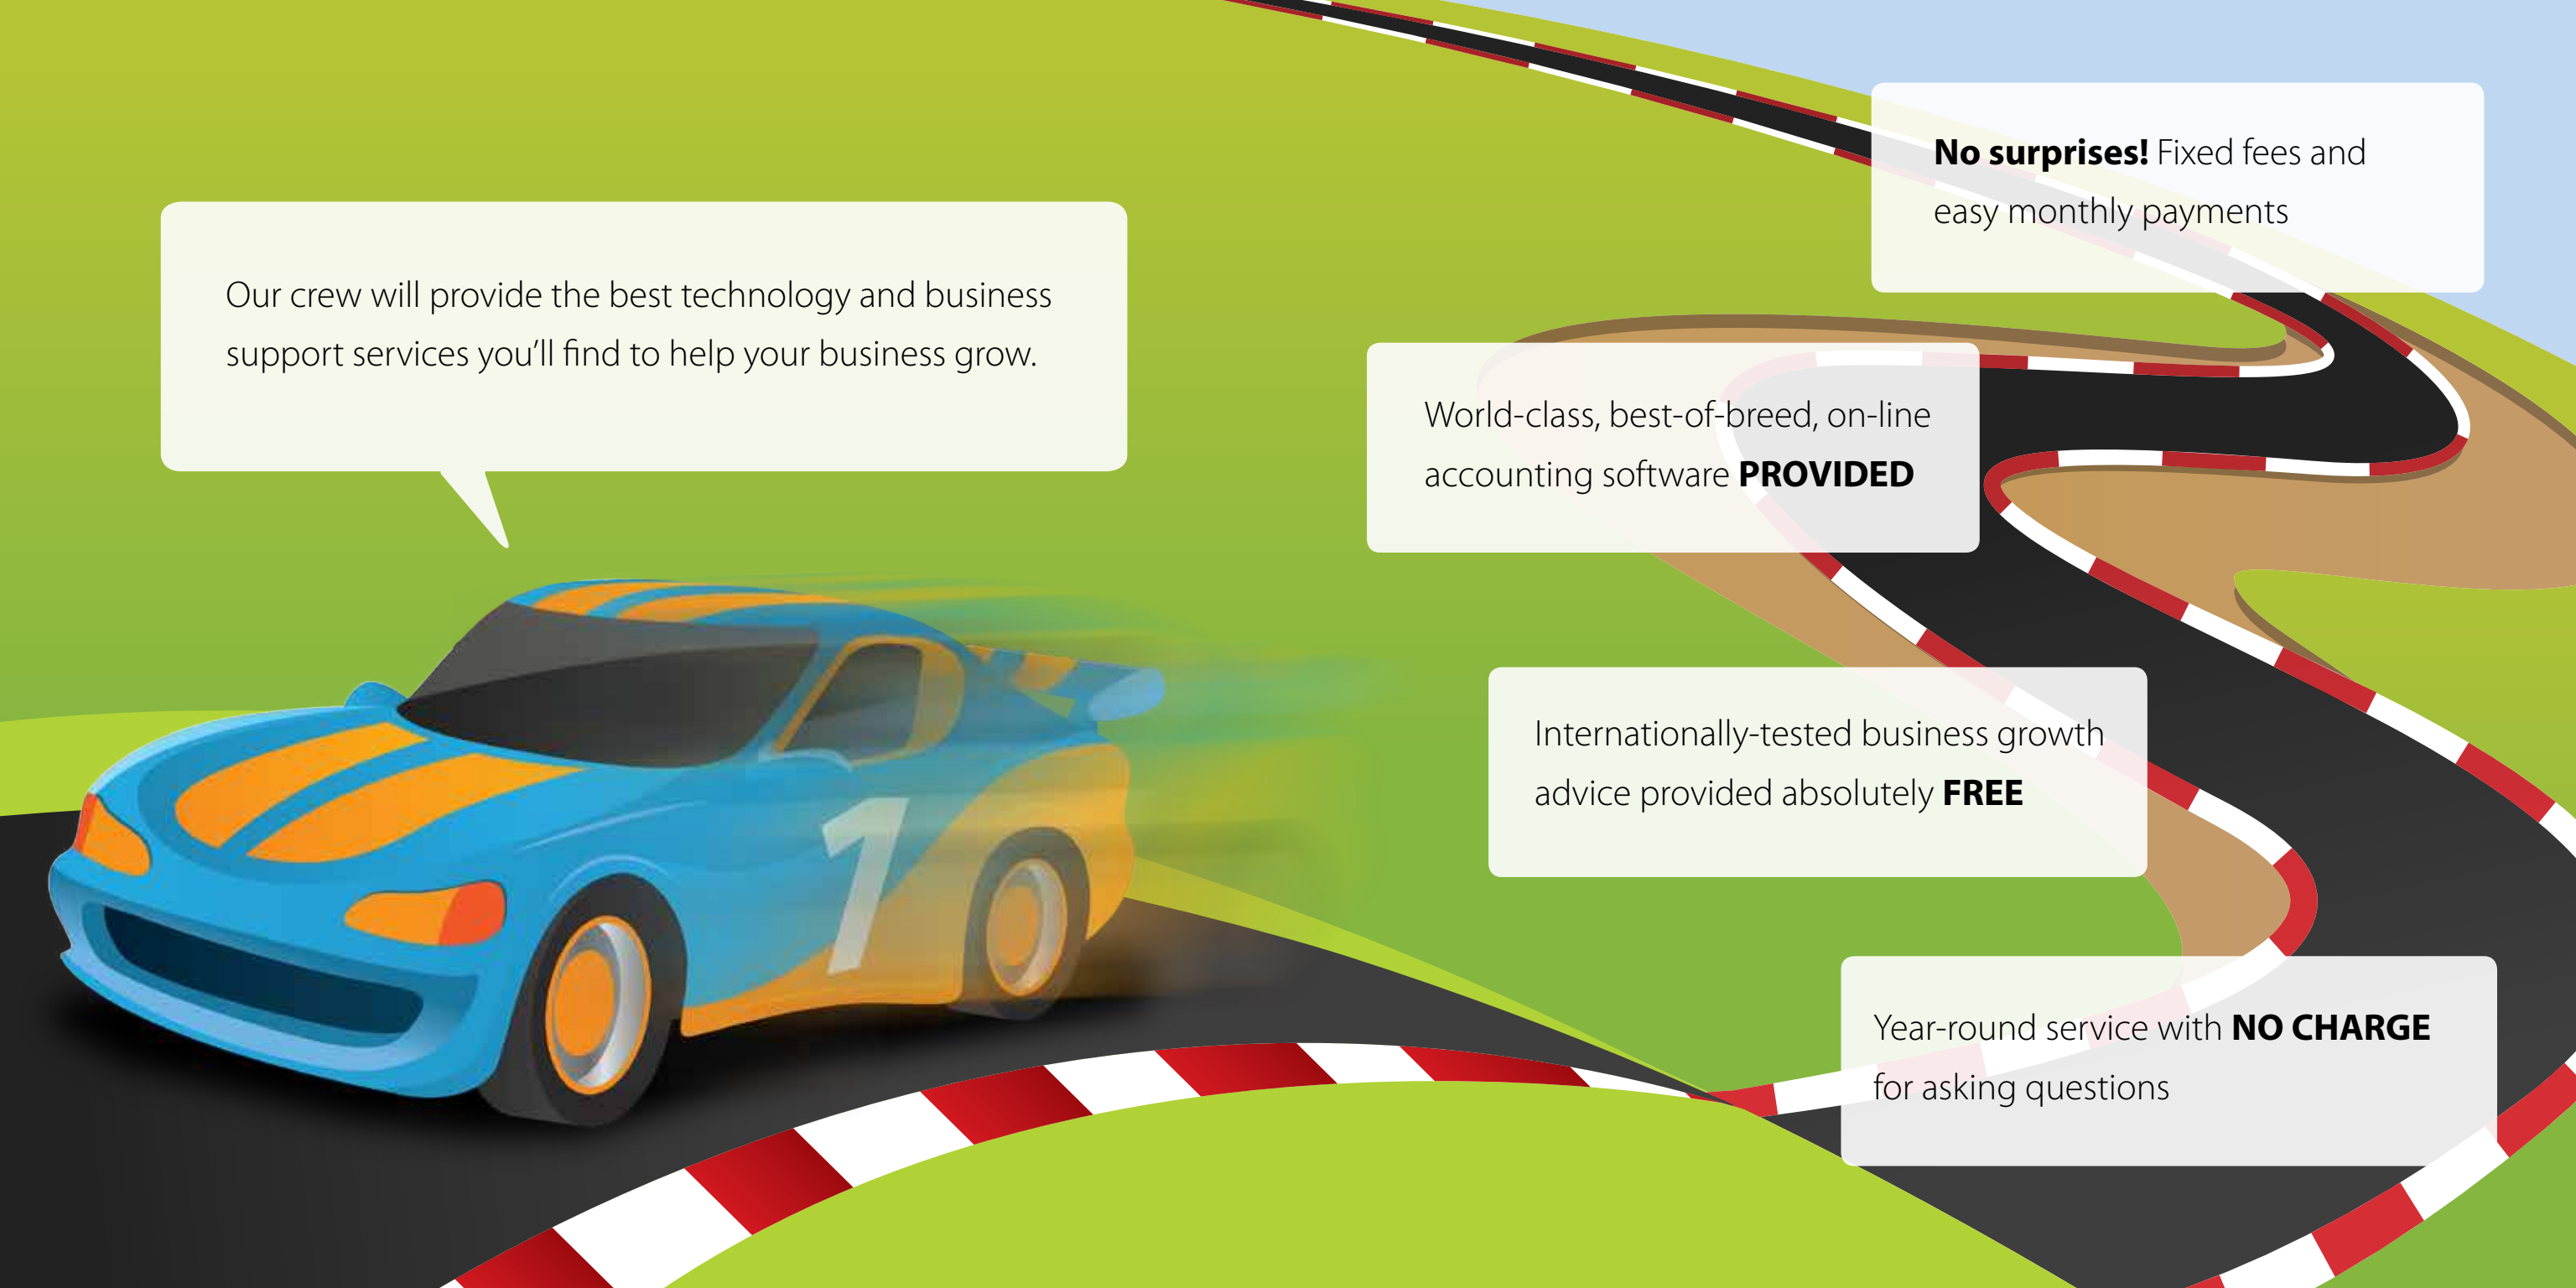

that is high-tech and high-touch and designed to keep you on-track and picking up speed.

## Business Growth

Winning the race needs so much more than clean oil and inflated tyres (tax returns and accounts) – it takes strategy and implementation. Because we want to help your business succeed we offer a range of coaching programmes to help you improve your business and your marketing. As a starting point we give you access to the world-class Business Growth Vault which contains a Master's level of information that will help you attract more customers and make more money. And then, depending on how fast you want to go, we support you and coach you as you implement and grow your business.

# FUEL YOUR ACCOUNTING

Every car and driver are different. We've created a range of starting points to help us tailor our crew's services to your unique needs.

**Co-Pilot:** flying round those corners with some more complicated engine parts and needing to make changes on the fly.

Race Coach plus...

- Monthly tune-ups
- Monthly HST filing
- Quarterly race review meeting

from  
**\$299**  
month

# Tune-ups

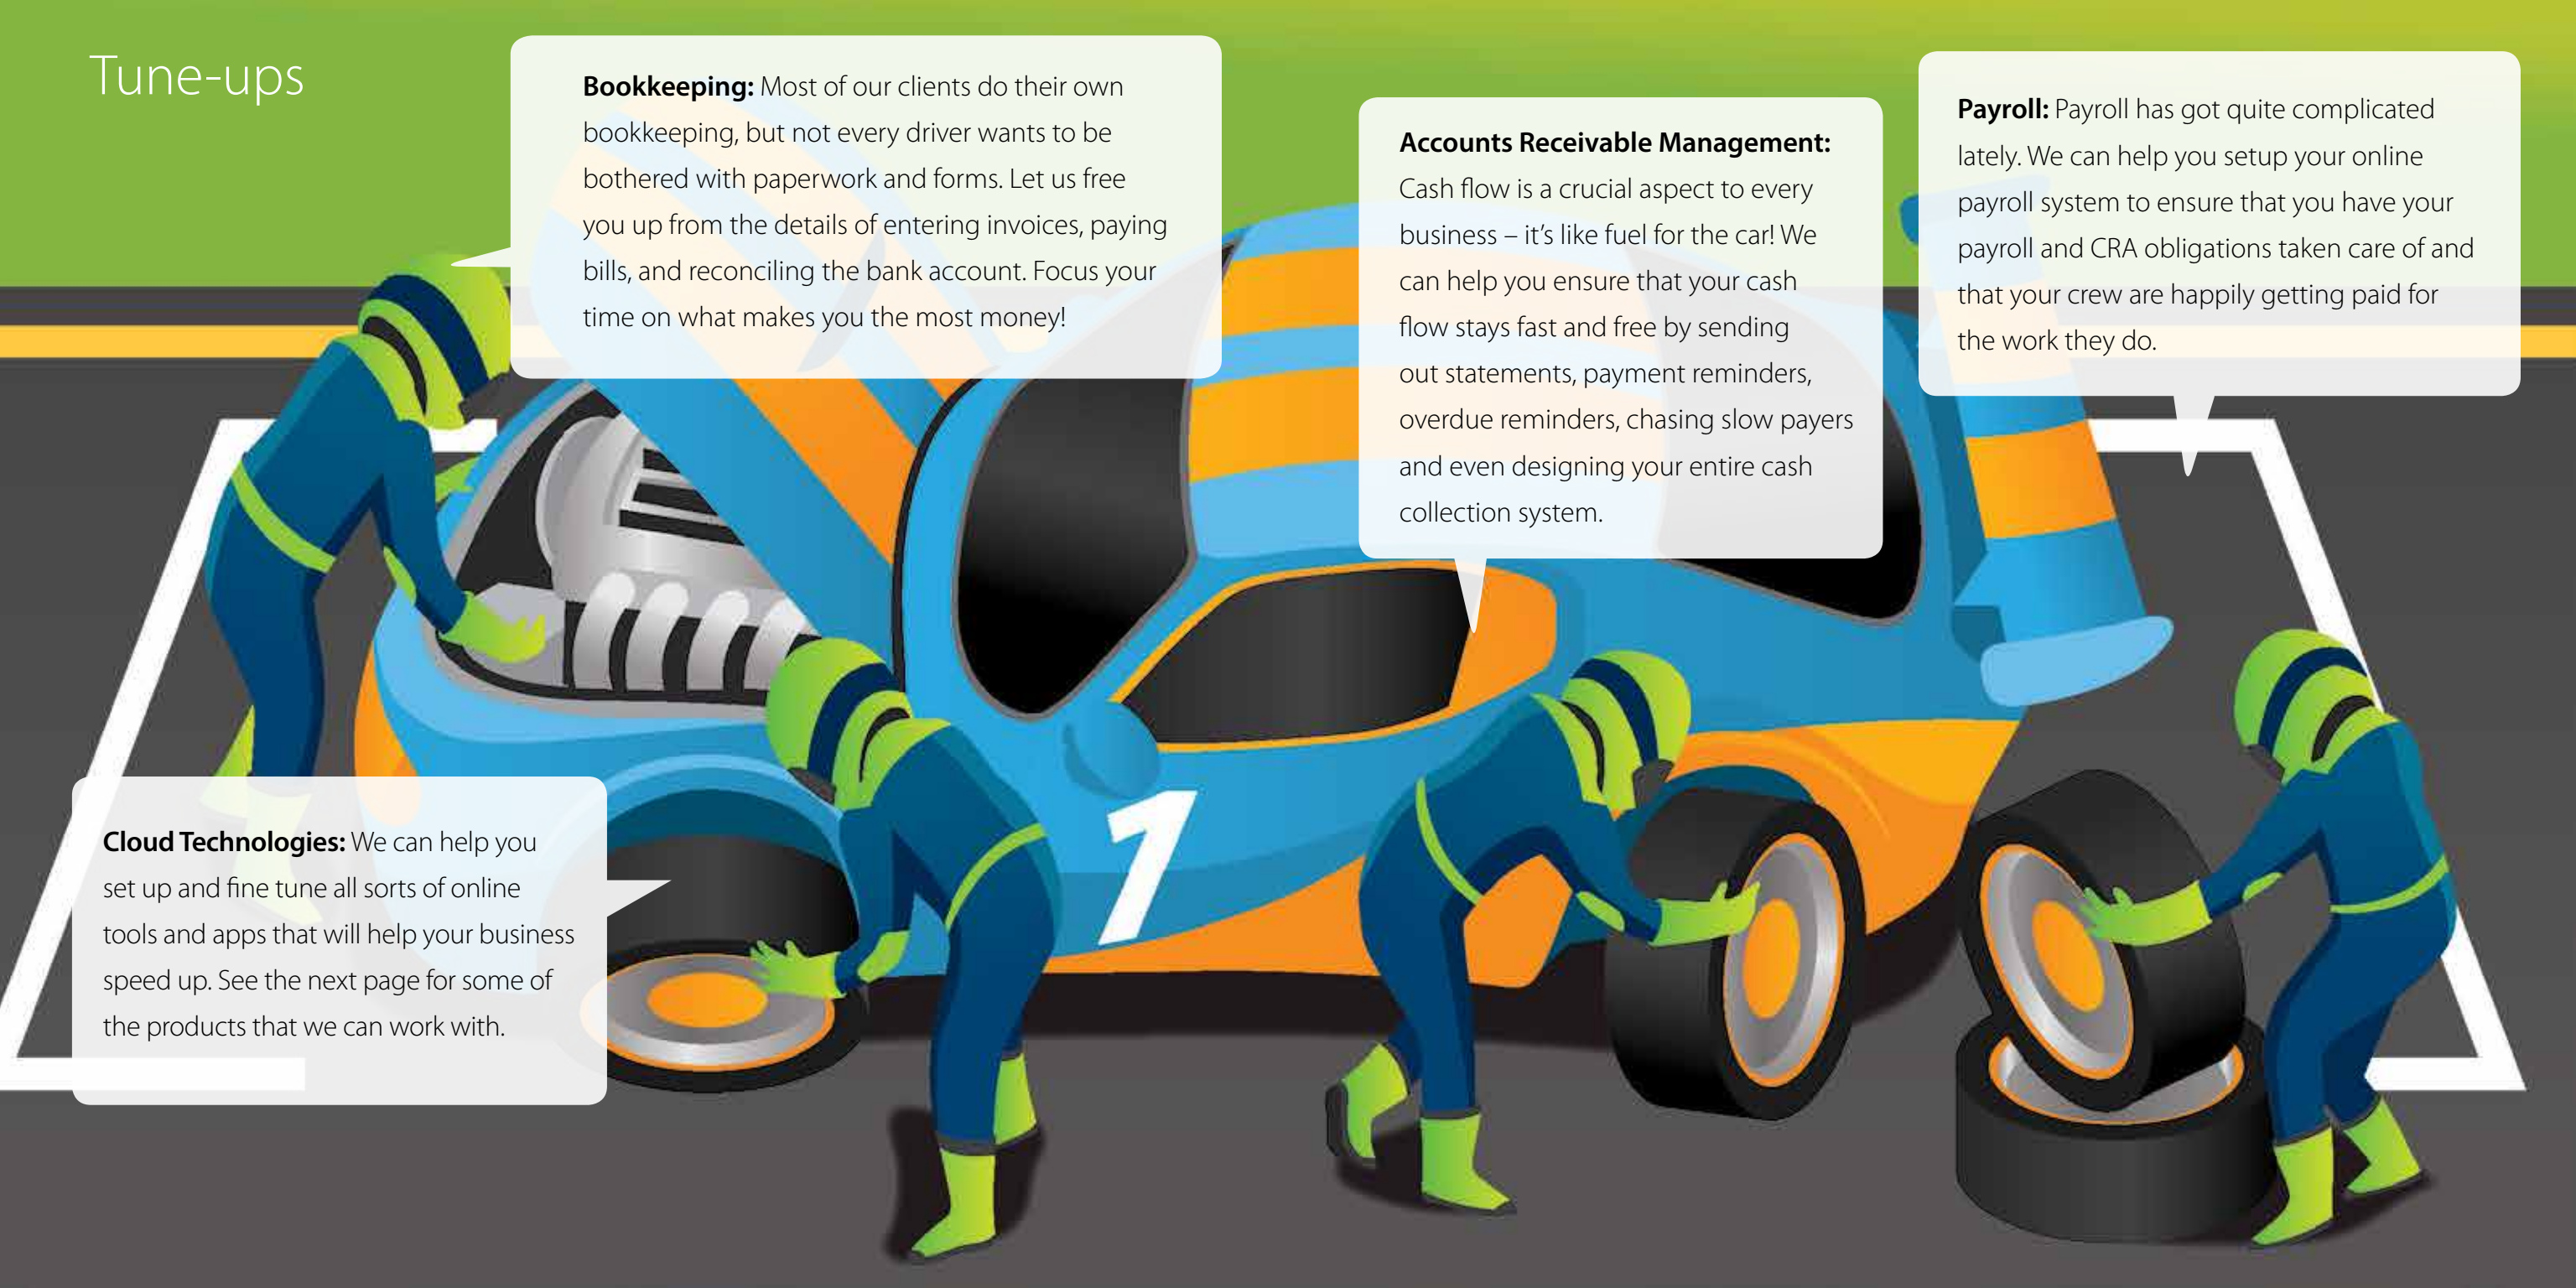

**Bookkeeping:** Most of our clients do their own bookkeeping, but not every driver wants to be bothered with paperwork and forms. Let us free you up from the details of entering invoices, paying bills, and reconciling the bank account. Focus your time on what makes you the most money!

**Accounts Receivable Management:**

Cash flow is a crucial aspect to every business – it's like fuel for the car! We can help you ensure that your cash flow stays fast and free by sending out statements, payment reminders, overdue reminders, chasing slow payers and even designing your entire cash collection system.

**Payroll:** Payroll has got quite complicated lately. We can help you setup your online payroll system to ensure that you have your payroll and CRA obligations taken care of and that your crew are happily getting paid for the work they do.

**Cloud Technologies:** We can help you set up and fine tune all sorts of online tools and apps that will help your business speed up. See the next page for some of the products that we can work with.

When it comes to racing – it's what's under the hood that counts! We're committed to bringing you best-of-breed modern technology systems to help your business operate at top speed! We strongly recommend Xero as your accounting system, and are Xero Award Winners! But there's so much more that we can help you implement.

- Xero accounting software
- Vend
- Unleashed
- Payment Evolution
- WorkFlowMax
- Capsule CRM
- Debtor Daddy
- uCollect
- Quickbooks Online
